

You need a more profitable practice, with less stress—today and tomorrow.
We have the relationships & resources to get you there.

Together, we'll
get the job done!

Advanced**Biller**
PARTNER SUCCESS PROGRAM

Our billing partners collect more revenue, faster

AdvancedMD has a national medical billing network—an elite group of certified, top-rated, and independent services that can support you with leading AdvancedMD cloud practice management & EHR software.

At a time when the business of healthcare is challenging doctors' commitment to remain in private practice, consider outsourcing your revenue cycle management to one of our specialists. Declining revenues and increasing operating costs are the bane of most private practices. If you struggle with hiring and retaining capable billing professionals, tracking and working unpaid or misadjudicated claims in a timely and efficient fashion, capturing patient portion payment at checkout, you should investigate an AdvancedBiller.

If you are currently using a billing service company, but are not receiving regular management reports that help the physicians and office management stay on top of collections, or you are seeing high monthly write-offs, consider an AdvancedBiller—a partner with proven expertise in your specialty.

Top 10 Reasons to Select an AdvancedBiller

1. Select from a national network of 350 billing services with proven competency
2. Receive personal, boutique-style support & attention
3. Increase staff productivity with scheduling, eEligibility, ePrescribing & EHR technologies
4. Easily capture credit card payments for patient co-pays & balances
5. Capture charges with an online charge slip or EHR for faster, more accurate submissions
6. Keep up to date on your financial health with automated reporting
7. Become more capable of staying compliant with regulatory changes
8. Improve agility to work anywhere you need to be with faster software access
9. Receive hourly, automatic & offsite data security
10. Eliminate cumbersome software, versioning & server costs
