

COMPLETE • PERSONAL • VERSATILE

PERFECTLY
ACCESSIBLE.
COMPLETELY
PORTABLE.

Advanced**Mobile**

Our easiest way to access practice & clinical data
from the convenience of the iPad & iPhone.

Complete

Review, add, edit & print chart notes, medications, problems, allergies, immunizations, scanned documents, lab results & insurance coverage.

Personal

Gain complete read/write access to patient data from anywhere at anytime.

Versatile

Whenever you connect to patients & staff from your iPad, it works seamlessly with all AdvancedMD desktop products.

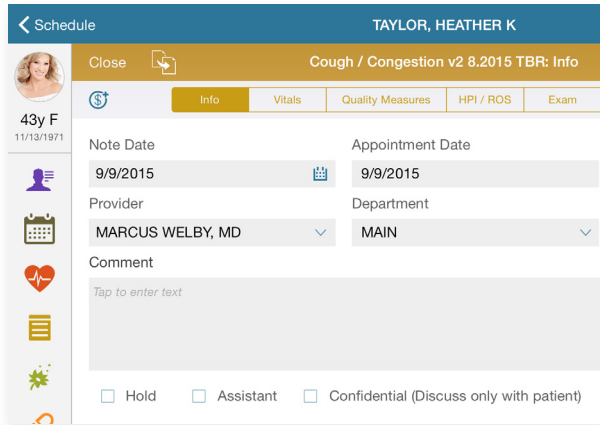

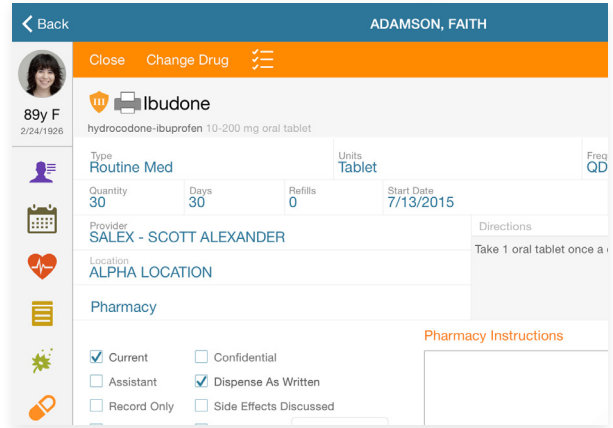

PRACTICE WITHOUT BOUNDARIES.

Give patients more attention with less distraction. Complete your EHR tasks on your iOS device with ease. Medication histories are always up to date & accessible with minimal taps. AdvancedMobile simplifies how you review, add, edit & print patient charts, medications, problems, allergies, immunizations, scanned documents, lab orders & results.

You can connect to your staff & patients with secure messaging. Attending to daily tasks, such as while on-call, has never been more convenient or complete. Everything you do with AdvancedMobile happens with amazing speed & security.

Mobile prescriptions

Securely manage prescriptions electronically on the go & save time & improve communication while increasing patient satisfaction.

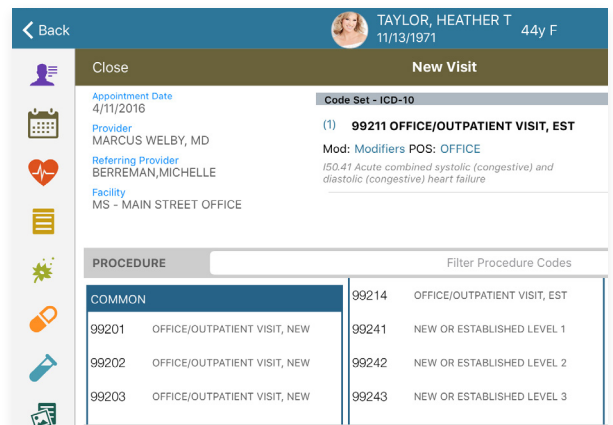

Mobile charting

Review, add, edit & print patient chart notes, medications, problems, allergies, immunizations, scanned documents, lab orders & results, as well as insurance coverage.

Mobile charge capture

Create new patients, capture charges & see outstanding charges from your iPad & minimize the risk of lost charge slips. All work is automatically synchronized, so billing & claims processing can start immediately.
