COMPREHENSIVE
CARE.
UNEXPECTEDLY
SIMPLE.

AdvancedEHR®

Mobile tools, specialty templates, customizable templates & subnotes-on-the-fly for an entirely new way to manage health.

Integrated

All AdvancedMD technologies are tightly integrated to ensure your clinical & business functions work harmoniously together.

Intelligent

HealthWatcher & automated alerts let you easily manage patient population health, conditions & preventive health routines.

Personal

Charting is customized to your workflow & available on nearly any desktop & mobile device, giving you untethered access & maximum face-to-face patient interactions.

PRACTICE FROM ANYWHERE.

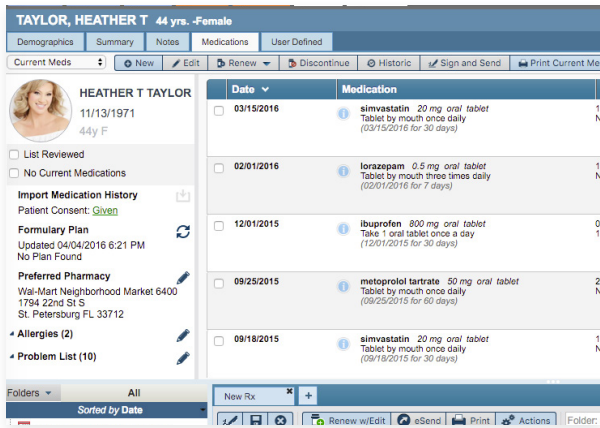

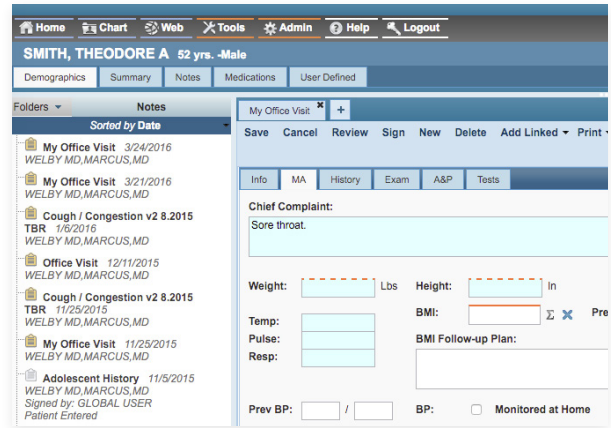

AdvancedEHR clients benefit from our AdvancedCloud & AdvancedMobileDoc iOS app that makes your documentation tasks more manageable & better organized. AdvancedEHR is fully integrated with AdvancedScheduling & AdvancedBilling to make your software experience remarkably seamless.

Staff can work in a single program, in a single database & enjoy the convenience of a single logon. This greatly reduces the need for multiple system data comparisons—a major source of frustration & wasted time.

See how easily you can practice from anywhere.

Customizable notes

Layout notes to your exact preference. Template controls include codifiable fields for reporting & tracking. Our specialty-specific templates give you a highly personal experience that fits your workstyle & clinical approach.

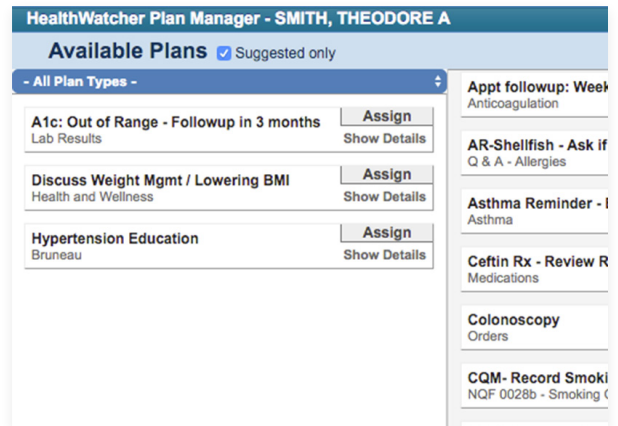

HealthWatcher™ care plans

Automatically sends reminders to you & patients with medical advice & healthcare best practices. Easily create customizable health plans based on clinical decision support & parameter-based triggers.

ePrescribing

Work electronically to save time & improve communication while increasing patient satisfaction. Prescribe all medications including DEA Schedule II-V.
