

MODERN PROCESSES.
INTEGRATED WORKFLOW.
OPTIMIZED OUTCOMES.
WORK FASTER, EASIER & MORE SECURELY
WITH PAPERLESS FAX.

Manage more efficiently and reliably by converting your fax process to go paperless. Electronic faxing means no longer having to print communications, maintain equipment, pay for paper, and manually manage documentation.

Our dashboard gives you a single, interactive experience where you can combine multiple pages and file

formats into a single outbound fax. You can quickly and easily route inbound pages to your practice management and/or patient chart folders. A comprehensive audit log monitors all fax activity in your practice.

INTEGRATED

Send and save fax communications within practice management and EHR systems in a seamlessly integrated application.

EFFICIENT

Our fax dashboard helps keep inbound and outbound communications organized while allowing you to combine multiple page and file formats into a single outbound fax.

SIMPLE

Easily view, complete, and electronically sign incoming documents and referral letters, then distribute or archive all in seconds.

REDUCE PAPER CLUTTER & OPTIMIZE PRACTICE OUTCOMES

NO EQUIPMENT, JUST ONE CLICK

Ditch the fax machines, fax lines, toner and paper. Electronic faxing helps you send and receive single and multi-page documents with a click.

EASILY SEND FAXES WITH TEMPLATES

Custom brand fax coversheets with your practice contact information for a professional look and feel.

RECEIVE FAXES & QUICKLY FILE TO CHART

Simply attach a fax to the patient chart in AdvancedMD EHR or to folders in AdvancedMD practice management for improved productivity, especially in a high-volume environment.

VISIBILITY & EASY FAX MANAGEMENT

End the paper chase with an automated fax platform for viewing, filing, forwarding, and sending documents from a single dashboard.

CONVENIENT ELECTRONIC SIGNING

Secure, HIPAA-compliant electronic faxing lets you approve or finalize digital referral letters, prescription renewals, and more.
