

CONVENIENT ON-THE-GO PRACTICE. REAL WORK- LIFE BALANCE.

UNTETHERED ACCESS TO ALL PRACTICE DATA
IN A SECURE ENVIRONMENT.

One word: freedom. Our smart and secure mobile apps make it possible to take your practice with you while improving the patient experience. Gain access to scheduling, clinical, and financial data on your own terms, when and where you choose. Make it quicker for patients to check in and easier to unify front desk workflow. More convenience means more latitude, more time, and more satisfaction for all.

Be HIPAA-compliant and mobile at the point of care with our easy-to-use, secure medical record app. It simplifies how you review, add, edit, and print patient charts,

medications, problems, allergies, lab orders, and results. Medication histories are always up-to-date and accessible with minimal taps. Attending to daily tasks and taking call has never been more convenient or complete.

Our patient engagement apps also help streamline intake processes for front desk staff and keep patients engaged in their treatment plans. Secure messaging helps you stay connected to staff and patients with peace of mind. Everything you do on the app happens within the cloud, so you'll experience amazing speed and ensured data privacy.

COMPLETE

Review, add, edit, and print chart notes, medications, allergies, immunizations, images, lab results, and insurance coverage.

SECURE

Cloud solutions and data protocols ensure security across workflow within all apps from wherever you are.

INTEGRATED

Seamlessly connect to patients and staff from your mobile device with all other AdvancedMD products.

MORE FREEDOM, MORE ACCESS— ALL AT THE POINT OF CARE.

SCHEDULING

Scheduling on the app mirrors desktop preferences with quick access to appointment details.

CHARGE SLIPS

Create and submit a charge slip with minimal clicks, reducing the risk of losing earned revenue.

DAILY WORKLISTS

Review bin lists all outstanding charges where you can sign off on clinical notes and lab results.

PATIENT RECORDS

Easily perform a patient search, open patient charts, access patient demographics, and view patient facesheets.

SOAP NOTES

All notes entered within patient charts and appointments are optimized for mobile use and display.

IMAGE STORAGE

With one touch, add lab images and capture high-resolution photos directly within the patient chart.

MESSAGES

Secure messaging keeps you connected to office staff and patients engaged in their care plan.

ELECTRONIC PRESCRIBING

Manage refill orders or renewal requests and transmit scrips with a click.
