

REACH MORE. SEE MORE. EARN MORE.

EASILY SCHEDULE REMINDERS TO REDUCE
NO-SHOWS & IMPROVE CONTINUITY OF CARE.

Gain front desk efficiency, achieve higher show-up rates, and increase revenue with automated appointment reminders. By removing laborious person-to-person calls, office productivity can be maximized while increasing staff satisfaction. And by ensuring more patients come in to be seen, you can optimize scheduling and effectively drive revenue.

Enjoy a simple and integrated messaging system that anyone in your practice can use. You can set up to three sequential, automated reminders about upcoming appointments or patient recall visits.

Links to reschedule can be included in each reminder. The patient's language of choice and preferred communication method can be adjusted. You can even control how patients confirm or cancel appointments and message your practice with questions.

Automated reminders and higher patient visits also help support positive clinical outcomes. Patients who show up for their appointments receive more care and become better engaged in their treatment plans. It's the simple, modern way to enhance the patient experience and optimize continuity of care.

SIMPLE

Easily configure appointment reminder schedule, adjust communication method, and set language translation based on patient preferences.

AUTOMATED

Save time with automatic messaging processes and communication preferences that can be set by the patient in the patient portal.

INTEGRATED

AdvancedMD "sees" your newly scheduled appointment and automatically sends reminders one day, one week, or one month ahead of the date.

AUTOMATION MAKES IT EASY TO REMIND YOUR PATIENTS OF UPCOMING APPOINTMENTS.

EMAIL & TEXT APPOINTMENT REMINDERS

Patients can opt-in to receive email and/or text reminder messages for upcoming appointments.

MESSAGE TEMPLATES

Save time with message templates available or craft messages from scratch.

REMINDER CONFIGURATION

Reminders can be set to one day, one week, and/or one month ahead of the appointment.

QUICK & EASY SETUP

User configuration is simple so in minutes you can have all reminders set to run automatically.

REAL PRACTICE OUTCOMES

Improve continuity of care and optimize scheduling with fewer no-shows and late arrivals.

PATIENT CANCELLATION

Patients can easily cancel appointment via phone, email, and text so staff can respond and fill as needed.

PATIENT CONFIRMATION

Automatic reminders include links so patients can confirm their appointment to increase patient show-up.

CUSTOMIZABLE SETTINGS

Control time and frequency of communications, as well as email addresses and text numbers, for easy patient recognition.

SPANISH LANGUAGE

Patient language preference allows your text, email, and voice reminders to be sent in Spanish automatically. Es tan facil.

HISTORY LOG

Appointment reminder communications are included in the patient's history log for improved visibility and easy tracking.
