BUILD MORE TIME INTO YOUR EVERYDAY.

SCHEDULING SOFTWARE THAT STREAMLINES YOUR WORKFLOW FROM START TO FINISH.

Integrated automation is the easiest way for your practice to streamline scheduling workflow, optimize staff capacity, and drive profitability. It makes managing patient appointments, provider schedules, and intake processes simple and fast for the front desk, significantly reducing everyday inefficiencies.

Within our scheduling tool, limitless columns and tabs can be added, organized, and customized according to user preference. Color coding helps keep calendar views easy to read and follow. You can filter by multiple fields to easily access, track, and report at any level of detail, effectively managing staff time and making the most of practice resources.

Complete patient intake can occur in less than a minute. With one click, you can quickly open patient demographics to review and verify patient information.

Patient and family balances are conveniently visible so you can immediately collect any outstanding balances. eEligibility allows you to automate the confirmation of patient insurance coverage prior to the appointment. On-demand verification can also be used for on-the-spot checks and notes can be added as needed to the appointment.

FLEXIBLE
Schedule providers and locations with nearly limitless columns and tabs for your workflow needs.

VISUAL
Appointments are color-coded to your preference by type, block, resource, and repeating event.

EFFICIENT
Integrated with EHR and our mobile app for easy, convenient access to real-time patient and appointment info.

APPOINTMENT SCHEDULING SOFTWARE FOR A FASTER, MORE PRODUCTIVE MEDICAL OFFICE.

RECURRING APPOINTMENTS

Patients can optin to receive email and/or text reminder messages for upcoming appointments.

WAITLIST MANAGEMENT

Add patients to a waitlist and set a trigger to have them automatically entered into a newly available time slot.

PATIENT ROOM TRACKING

Track patient office visits and use key metrics to shorten wait times and increase both staff and facility utilization.

INSURANCE ELIGIBILITY VERIFICATION

Know insurance coverage before appointments with on-demand verification for spot checks or entire-day batch runs.

APPOINTMENT REMINDERS

Alert your patients before each appointment to reduce no-shows and late arrivals with auto-reminders.

SCHEDULE SNAPSHOT

Use the snapshot view to see daily appointment counts for each provider, resource, or practice location.

QUICK-LOOK SUMMARIES

Hover your mouse over the calendar to see patient contact information, clinical notes, and appointment type and duration.

QUICK-ADD FUNCTIONS

Find available time slots, view appointment histories, and schedule appointments in a single screen with just one click.
