

PERSONAL • CONVENIENT • CAPABLE

AUTOMATED  
ENGAGEMENT.  
AUTOMATIC  
RELATIONSHIPS.

AdvancedPatient<sup>®</sup>

All the tools to automate & streamline the highly-complex patient journey from self-service scheduling to capturing positive online reviews.

### Personal

Communicate with patients easily & securely with automated tools such as telemedicine, appointment reminders, forms & health alerts.

### Convenient

Patients can self-manage many processes through a patient portal, messaging & online scheduling.

### Capable

Everything you need to engage patients in their healthcare experience & drive a positive online reputation.

## ENGAGE YOUR PATIENTS

AdvancedPatient includes a robust suite of integrated patient engagement tools to improve the patient experience with many self-service features designed to save time, effort and improve accuracy.

Features include reputation management, satisfaction surveys, telemedicine, patient portal, check-in kiosk, online intake & consent forms, appointment reminders & online patient scheduling.

Automation reduces many of the manual processes traditionally borne by both patients and practice staff.

See how easily you can engage your patients.

## Online forms & iPad kiosk

Patients can quickly & easily complete forms at home or on an iPad at your office. Simple tap-&-type entry makes it a quick & easy to update demographic changes, complete a form or sign a form.

The screenshot shows a patient management interface. On the left, there's a list of appointments for 5/18/2015. Each appointment includes a patient's name, age, gender, and time, along with a status indicating if forms are assigned. On the right, there's a 'New Patient' form with fields for personal information, contact details, and insurance.

Date	Time	Patient Name	Age	Gender	Forms Assigned
5/18/2015	10:45 AM	HOUSE CALL			No Forms Assigned
5/18/2015	11:45 AM	FOLLOW UP			No Forms Assigned
5/18/2015	10:00 AM	FOLLOW UP			No Forms Assigned
5/18/2015	3:00 PM	FOLLOW UP			No Forms Assigned

**New Patient Form Fields:**

Consent Form Example	Consent		
Testing 1	Consent		
New Patient Form	Intake		
Patient Form Template	Intake		
History	Intake		
MikePatientTemplate	Intake		
MikePatientTemplate copy	Intake		

## Intake form management

To ensure accurate form entry, your office can easily review, accept, reject, or delete forms entered by patients. These electronic forms replace heavy labor-intensive & paper-based packets. All documents automatically upload to the patient chart, creating tremendous productivity & eliminating paper storage.

## Patient Portal

The heart of patient engagement is the robust AdvancedMD patient portal that serves as the secure bi-directional communications platform between you & your patients. You can post education, collect payments, communicate & send intake forms.

The screenshot shows a patient portal interface for Walter Wright. It includes account information, a balance, next and last appointment dates, and a list of service options.
